Dear Sir

Downing April 24th - 88

I thank you for your kind attention to my wants. Be so good as to deduct the price of Tangiers from Moses's bill & pay the remainder to Mesr Gosling. I will discharge yr account with the former. I have found the Holl[illegible]ar's muff so please not to trouble yourself further about it. Last night I sent off by the Chester coach the first parcel of the *arctic zoology* which you will receive before this. in the first leaf I put the Boreas from the Temple of the winds which I thought would suit the subject. In the parcel is one for a mr Christie which please to give House room to, for it will be called for.

I heartily wish you & miss Bulls[2] a good journey into Cornwel. It will give a better relish for the isle of Wight. It is my way to India not to Nowva Zemlja that I am to call on you: old men should seek the Sun. By the by let me request you to pay close attention to the outside of the carved church at Launceston & also its very curious castle. and if you can make excursions, Pray visit the very curious one of Roche Rock beyond Bodmin.

I shall be glad to hear how Mr Burell & how Mr Storer do. I am alway anxious abt the health of my firmer friends.

I must bring in my Son. He was very desirous of visiting Gibraltar but the Pestilence & embargo by sea & the peevish monarch of spain by land, will deprive him of the sight.

Adieu Ds Sir
Yrs most truely

T. Pennant
